

Compressor Modernization

Compressor Modernization

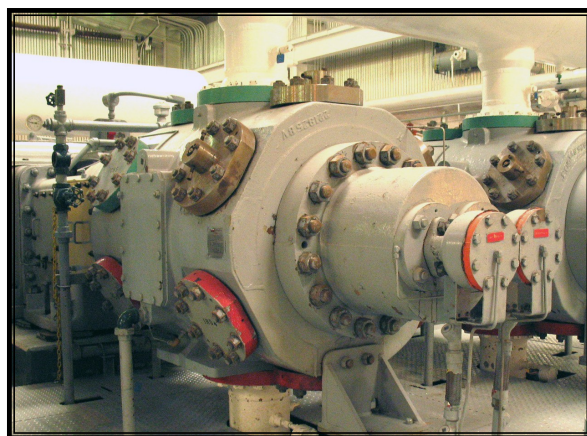

- ✓ Revitalize Compression Assets
- ✓ Extend Equipment Useful Life
- ✓ Improve Reliability & Availability
- ✓ Cost Effective Solutions
- ✓ Modern Design Technology
- ✓ Shorter Project Completion Time
- ✓ New & Used Equipment

ACI conducts a comprehensive review of existing equipment across new operating conditions using our eRCM™ reciprocating compressor modeling software. Useful reconfigurations are identified and reviewed for optimizing existing applications or reapplications. Optimal solutions are developed based on downtime, costs, flexibility, performance and safety. ACI's services include complete project management, design, manufacturing, reconditioning, testing and installation.
